DETAILED ACTION

Claim Rejections - 35 USC § 112

Claims 57-60,62,63,65 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The following language is vague and indefinite as it is not clear is the applicant intends it to be claims limiting:

processes the bids and designates at least one Provider of the plurality of energy Providers to provide energy, consisting of electric power or natural gas.

The acronym DISCO should be avoided

In the claims, in the moderating computer, or in a first DISCO serving the at least one end user, or in an independent meter reading service entity, transmitting periodic usage reports associated with the at least one end user to at least a first designated Provider is indefinite in scope as to how this ties into steps (a) (b) and (c). Clarification is requested.

Double Patenting

Claims 57-60, 62, 63 and 65 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-44 of U.S. Patent No. 6047274. Although the conflicting claims are not identical, they are not patentably distinct from each other because they are overlapping in scope.
